

The turf equipment technician is responsible for helping maintain the quality and playability of the golf course by keeping equipment in excellent condition. The mechanic will perform repairs on gasoline, diesel and electric powered equipment under the general direction of the Superintendent.

Responsibilities:

- Conduct preventative maintenance program with operators to reduce damage to the golf course
- Repair all equipment, golf carts and member owned private carts
- Keep repair and maintenance records on all equipment with the assistance of the Superintendent
- Inspect, diagnose and repair mechanical problems for all equipment
- Set cutting heights, sharpen blades on cutting units and grind reels and bedknives
- Assist with part ordering
- Maintain a clean and organized shop
- Monitor fuel tank
- Assure proper disposal of all hazardous materials

Requirements

- Minimum 3 years Mechanic experience
- Knowledge of small engine repair
- Proper and safe use of equipment and tools
- Ability to inspect equipment and related components
- Must be highly motivated, goal driven and a self-starter
- Must have good communication skills
- Must be able to work independently and maintain an equipment maintenance schedule

Benefits

- Flexible hours based on the golf events, golf course maintenance and equipment maintenance schedules
- Golf privileges
- Out of hours shop privileges after employed for 6 months
- Meals offered at half menu price

Salary

- \$16/hr
- Part time, flexibility
